750 MW Scheme under JNNSM Phase-II, Batch-I: Stakeholders' feedback/views

Some of the Solar Power Developers (SPDs) with whom SECI has entered into Power Purchase Agreements (PPAs) under the subject scheme, have not been able to demonstrate the requirements for financial closure of projects within the stipulated time period; but have represented to SECI/MNRE that the projects can still be completed within the commissioning schedule as per the provisions of PPA, provided the conditions of Financial Closure are waived off.

Any suggestion/ feedback from the stakeholders is requested on or before 11th March, 2015, for further consideration of the matter.
